Dry site conditions, active fire spread in a variety of fuel types, lack of natural barriers and rugged local terrain are creating problems for control. The fire suppression strategy has been modified from extinguishing the fire to halting the fire's progression to the east. Helicopters 361EH and 508EH are supporting the fire out of Fort Yukon. The Chevak #2 and Arctic Village crews were transported to the fire. Critical resource needs are a Type 1 Crew, 2 Type 2IA crews, a Type 2 Helicopter, 2 CL-215s, Air Attack, the 12 smokejumpers currently on the fire and Plans unit leader. The terrain and fuels are dictating the use of suppression crews at this time. Fire behavior observed was creeping and smoldering with short runs with 1-3 foot flame lengths in dead and down timber.
